

Vision

Quality of Life goals and objectives attempt to create a range of opportunities for Council Grove residents to feel connected to their community and place. A high sense of quality of life can provide an attractive lifestyle to prospective residents and improve current residents feelings towards Council Grove.

Goals and Objectives

- 1 Enhance public parks and existing open spaces.**

Public parks and open spaces have been proven to improve the quality of life in areas by providing city residents' access to recreational opportunities and proximity to nature.
- 2 Develop existing community assets.**

Residents and participants in the comprehensive planning process identified community assets that made Council Grove unique. Developing and retaining these community assets contribute to the quality of life in Council Grove that is not found in other places.
- 3 Promote and create opportunities for community involvement.**

When residents feel as if their concerns and suggestions for their community are heard, their sense of belonging to a community and place increase. There are many ways to create opportunities for community involvement, especially in the implementation of the goals and visions created by the Comprehensive Plan.
- 4 Provide opportunities for arts and cultural engagement.**

Arts and culture experiences tie people to their community through events that are rooted in the history of the place. Creating connections amongst past and current generations strengthens the community.
